

PODMOŘSKÝ SVĚT

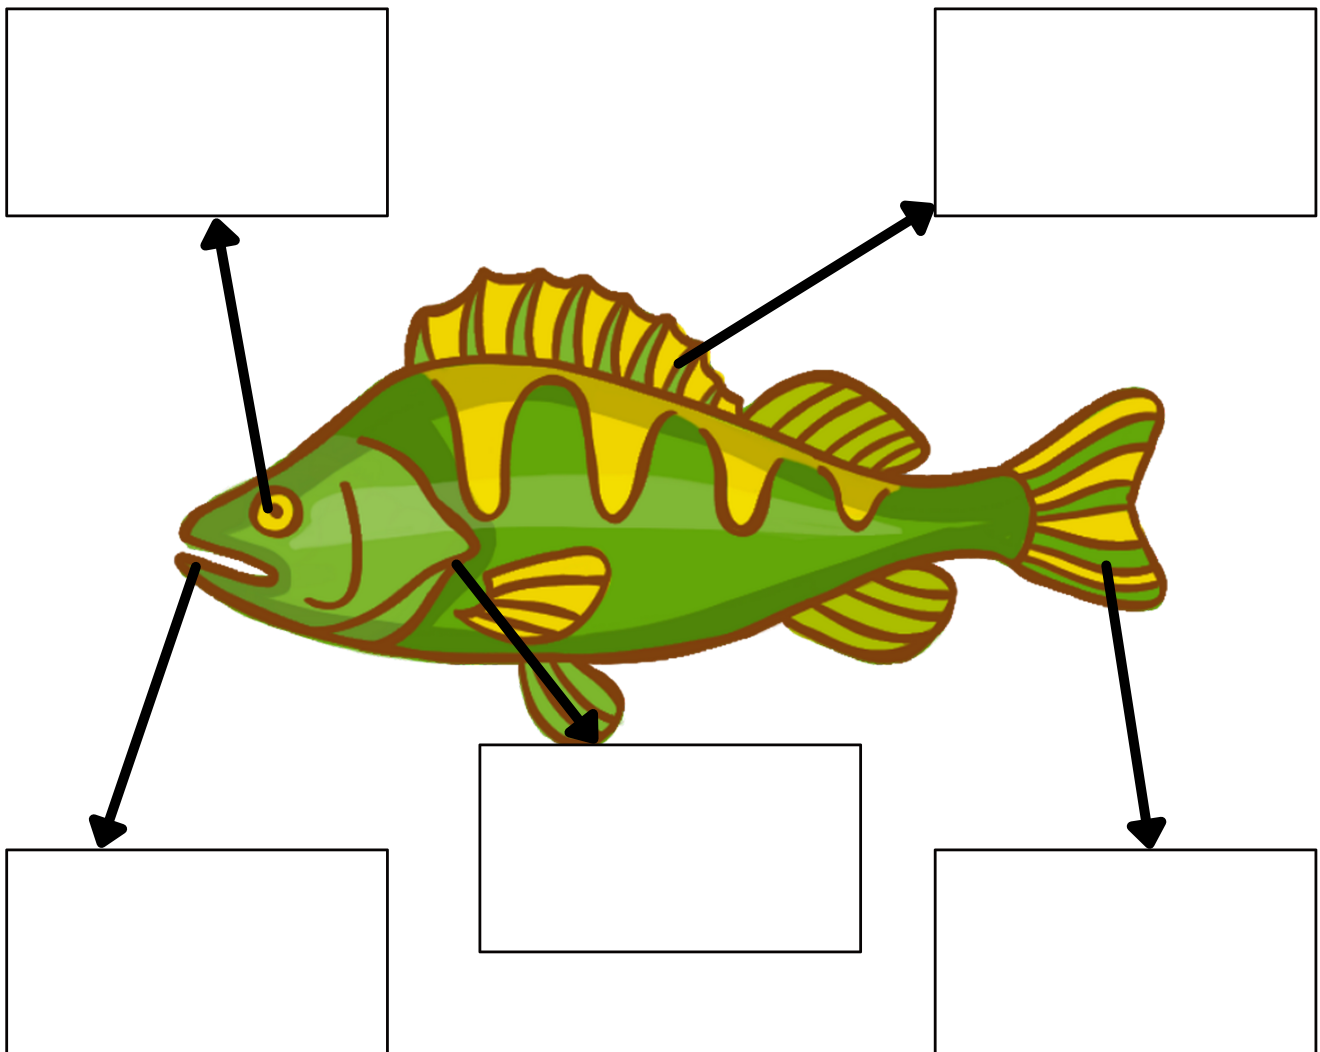

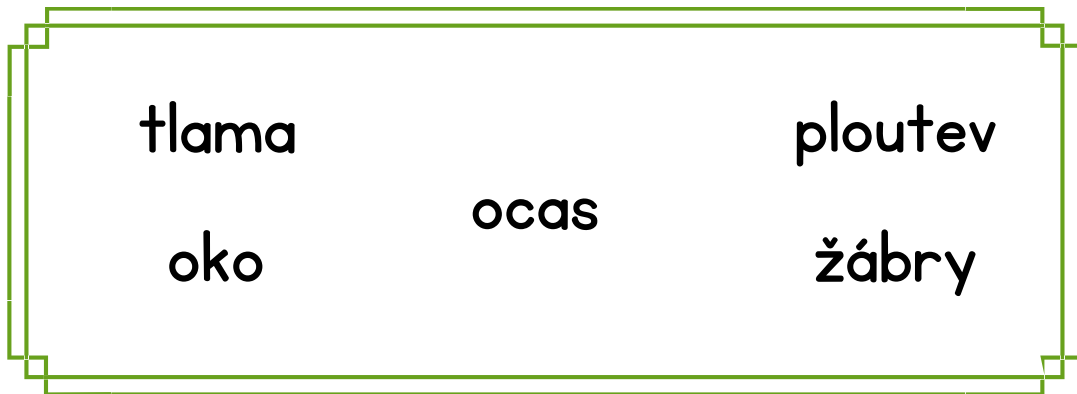

LALADŮ

Části těla ryby

Doplň do rámečků názvy části těla ryby.

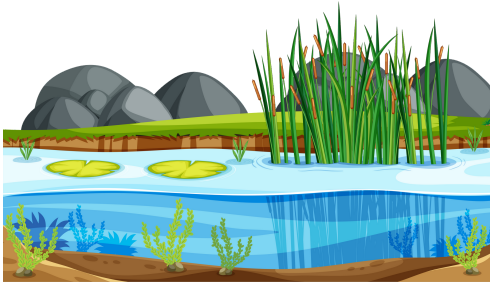

Druhy ryb

Ryby rozdělujeme podle toho, kde žijí na sladkovodní a mořské.

Sladkovodní

- rybníky a jezera
- potoky a řeky

Mořské

- moře
- oceány

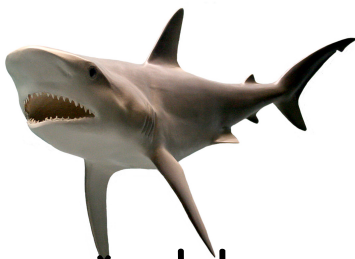

Které kam patří?

kapr

pstruh

žralok

tuňák

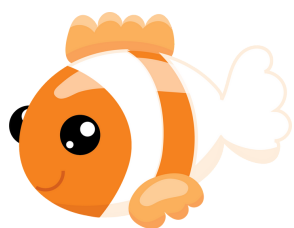

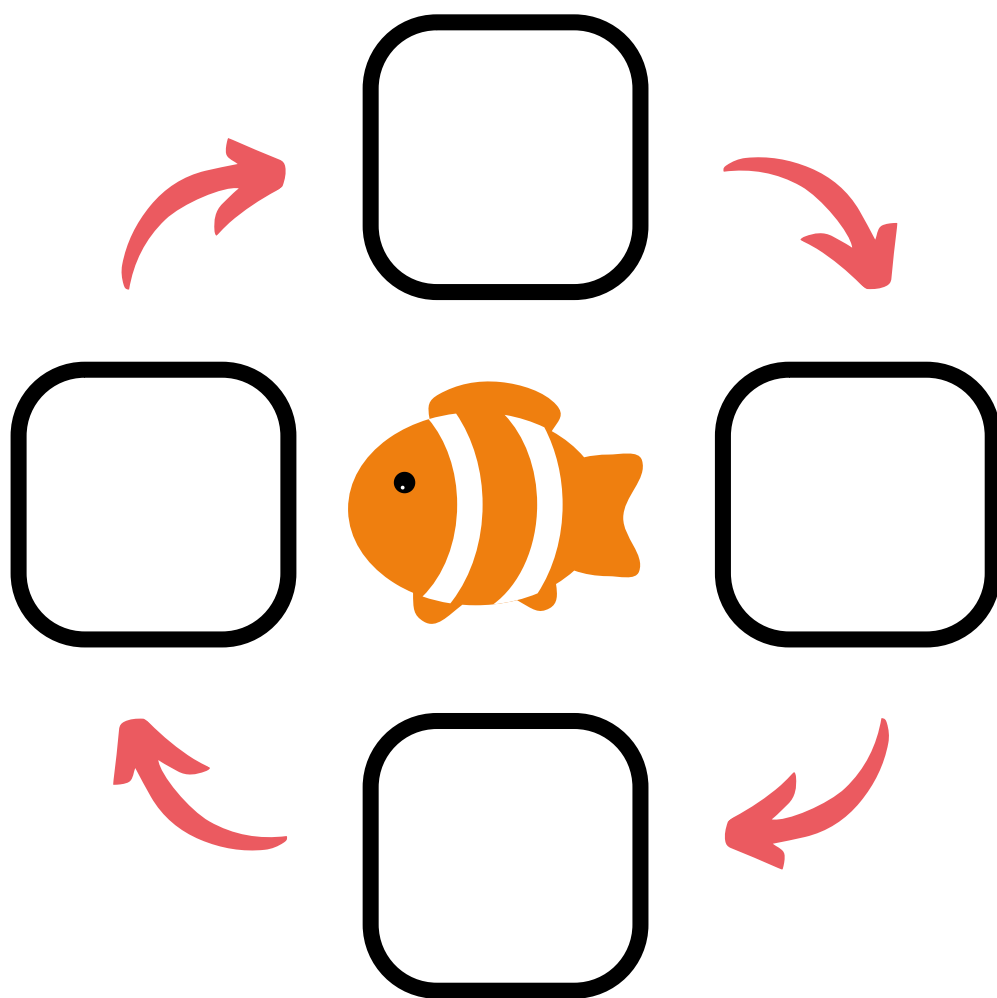

makrela

štika

Životní cyklus

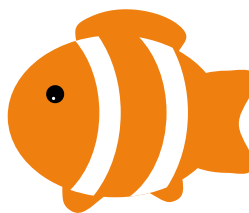

Doplň obrázky jak jdou za sebou v životní fázi rybičky.

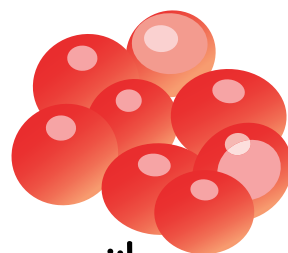

nedospělá
ryba

larva

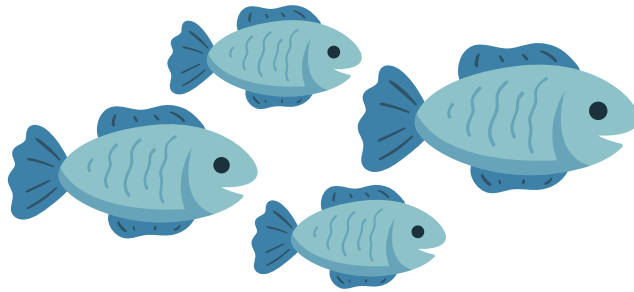

dospělá
ryba

jikry

Plave ryba po rybníce

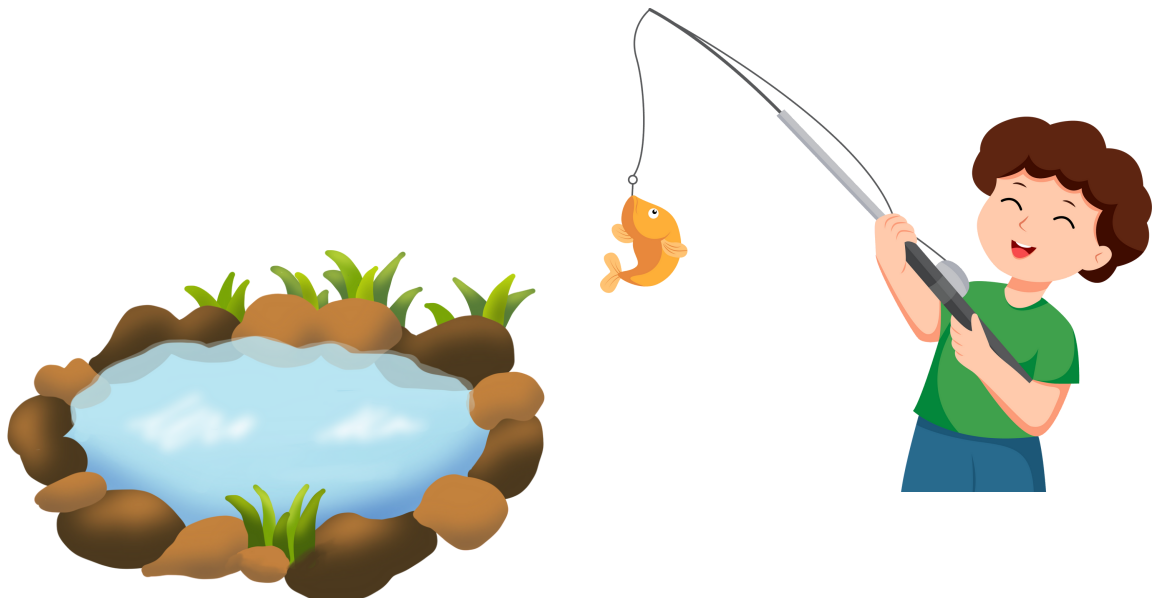

Plave ryba po rybníce, (děláme pohyb jako při plavání)
penízků má na tisíce. (ukážeme rukama velkou hromadu)

Mrskne sebou doleva, (skočíme doleva)
mrskne sebou doprava. (skočíme doprava)

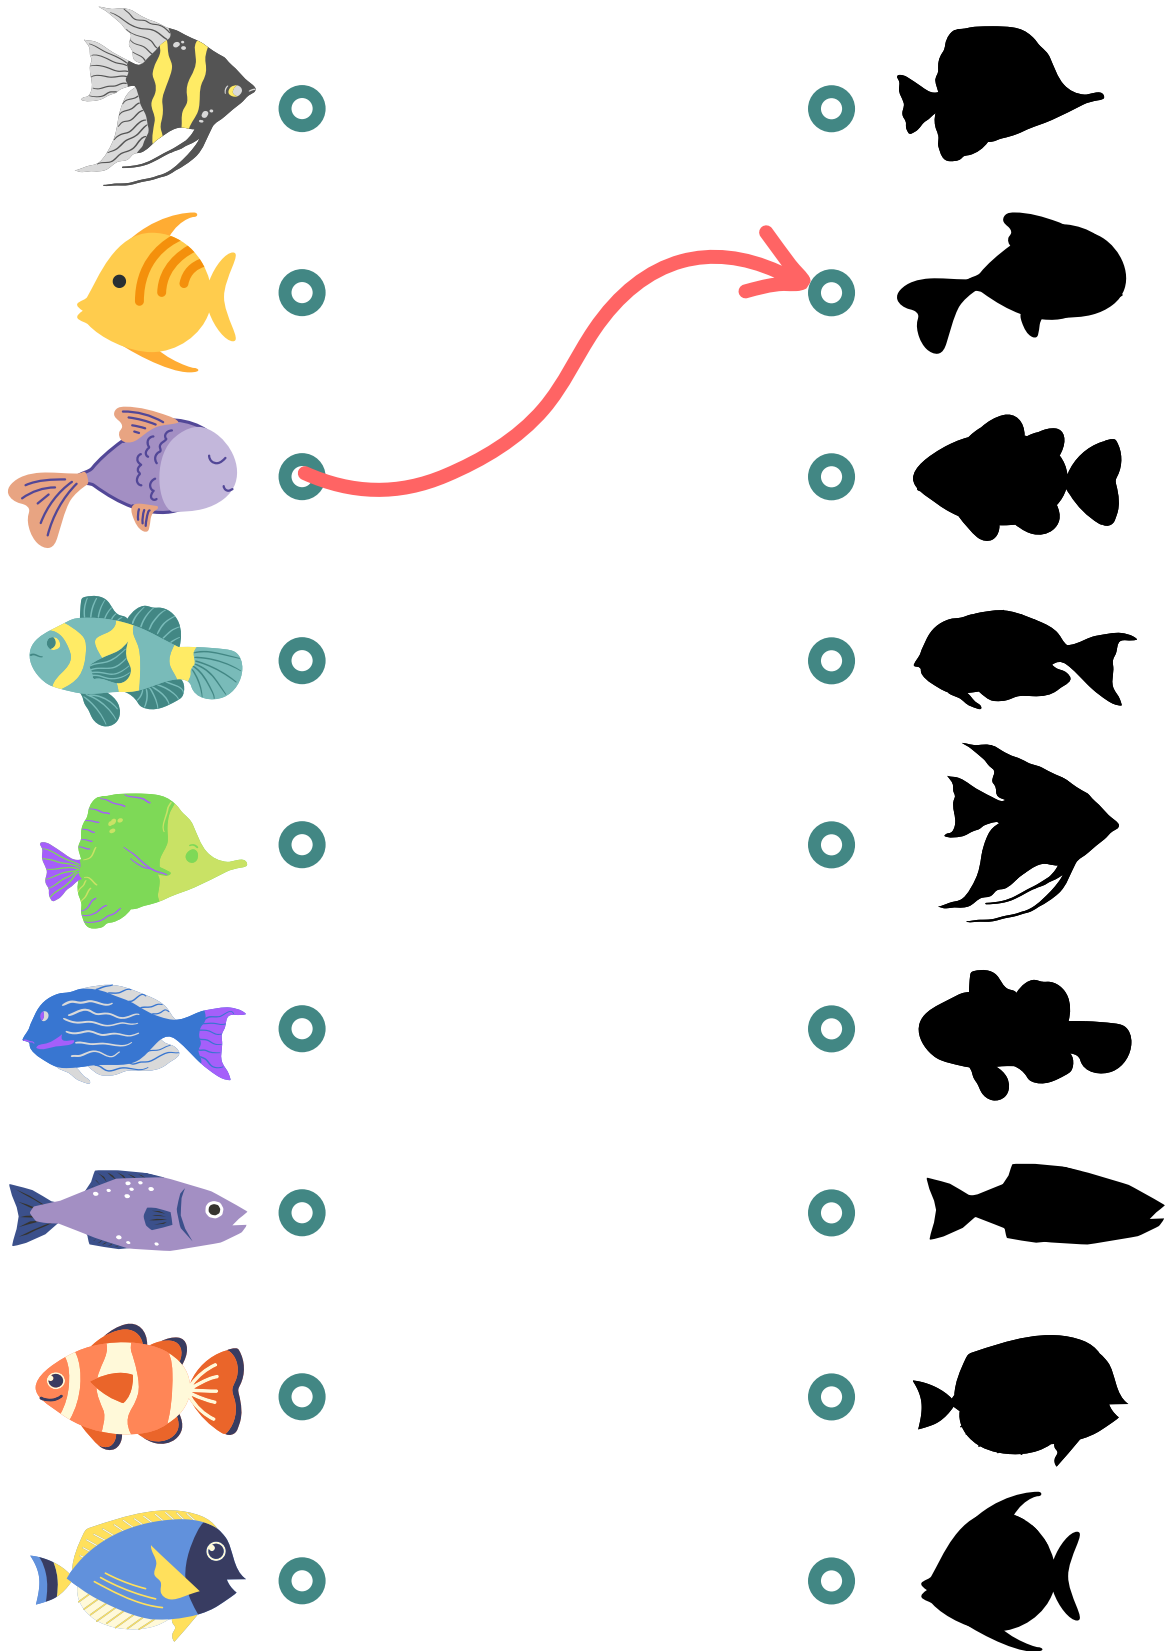

Umí plavat dozadu, (skočíme vzad)
umí to i dopředu. (skočíme vpřed)

Mámo, já to taky dovedu.

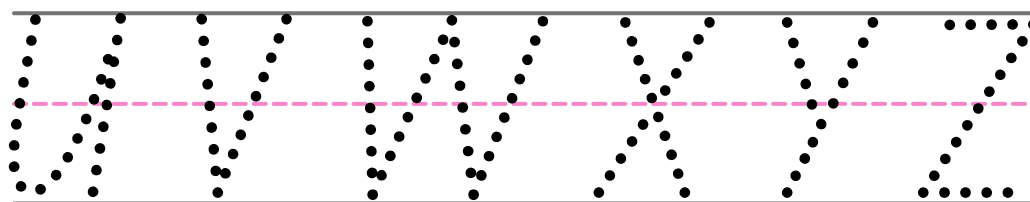

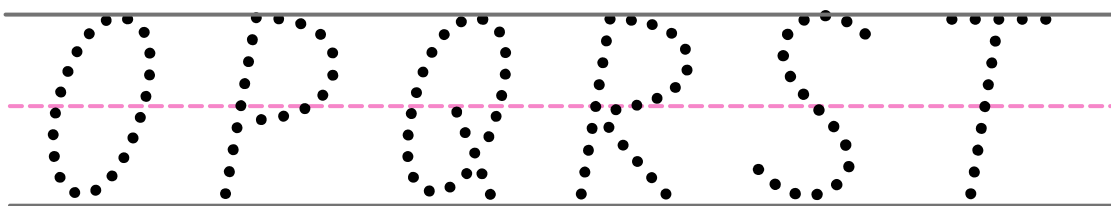

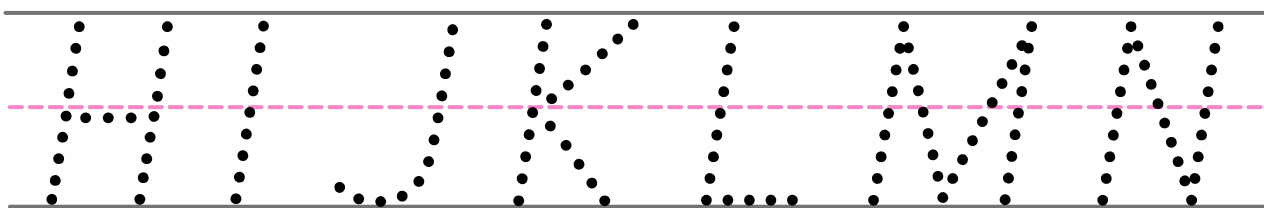

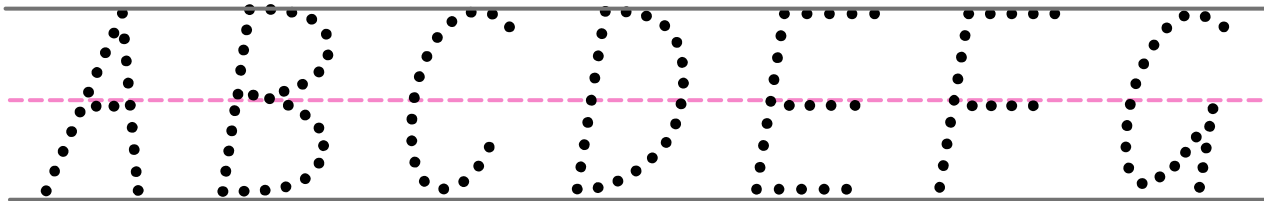

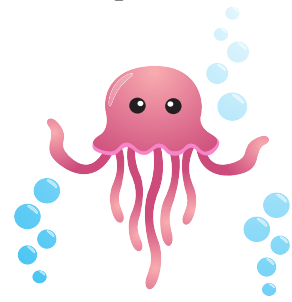

Spojovačka

Spoj rybičky se správným stínem.

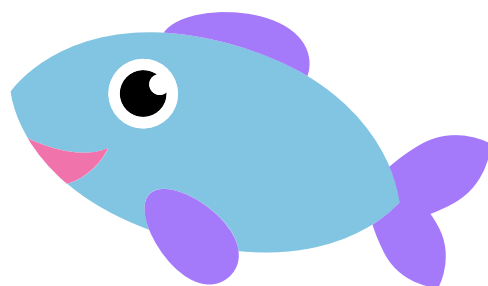

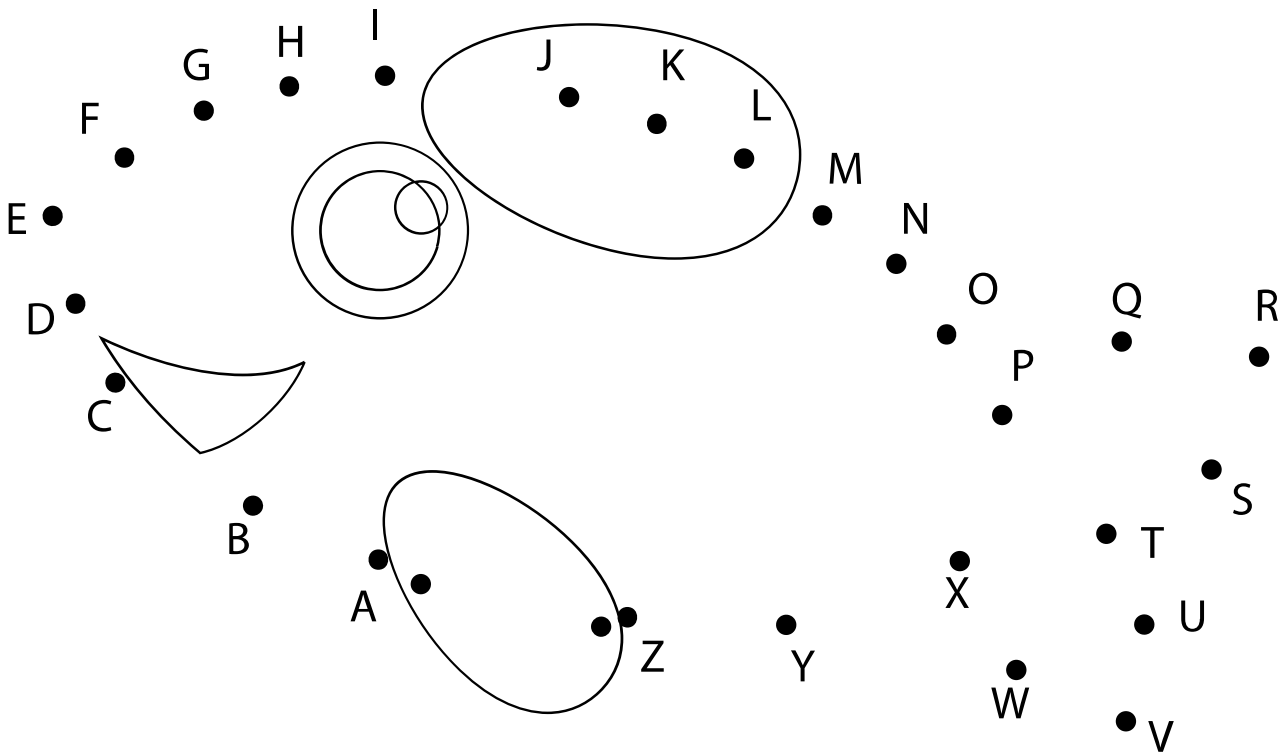

Trénujeme abecedu

Spojování

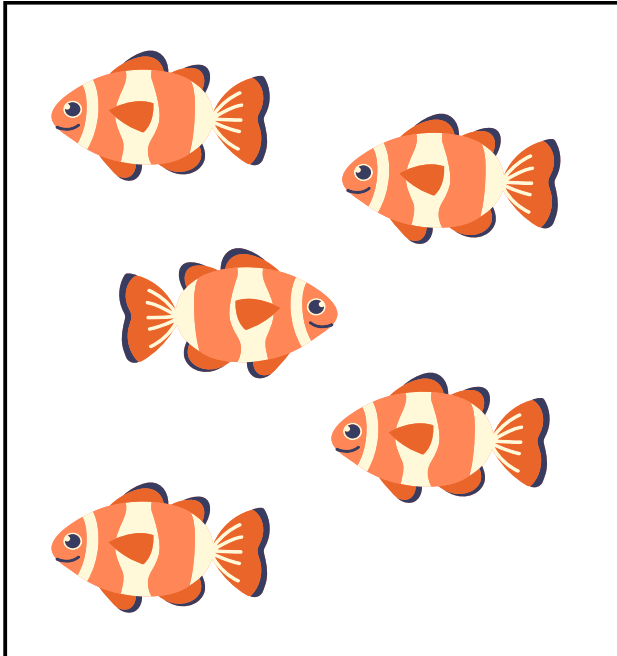

Spoj písmenka, jak jdou za sebou v abecedě a namaluj rybičku. Pak si ji můžeš vybarvit.

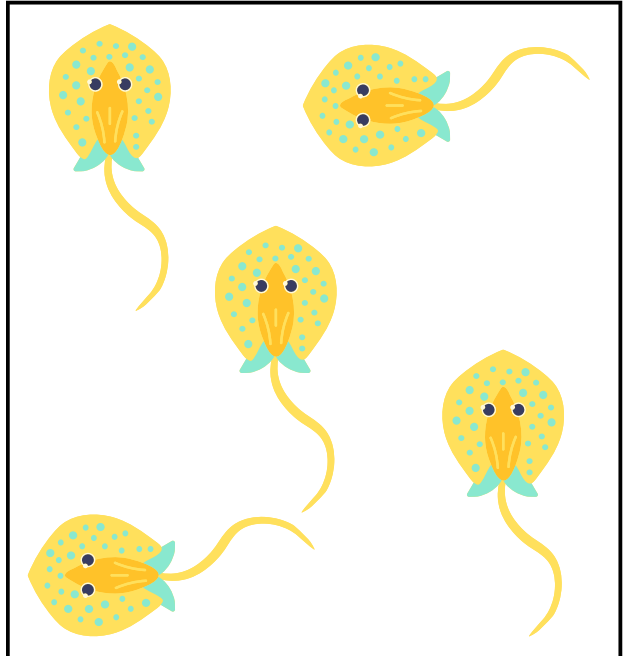

Počítáme pod vodou

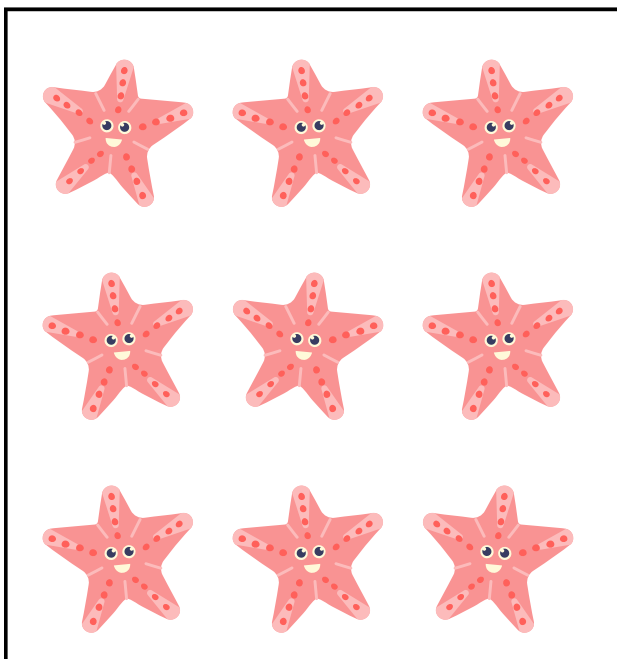

Spočítej a zakroužkuj správný počet.

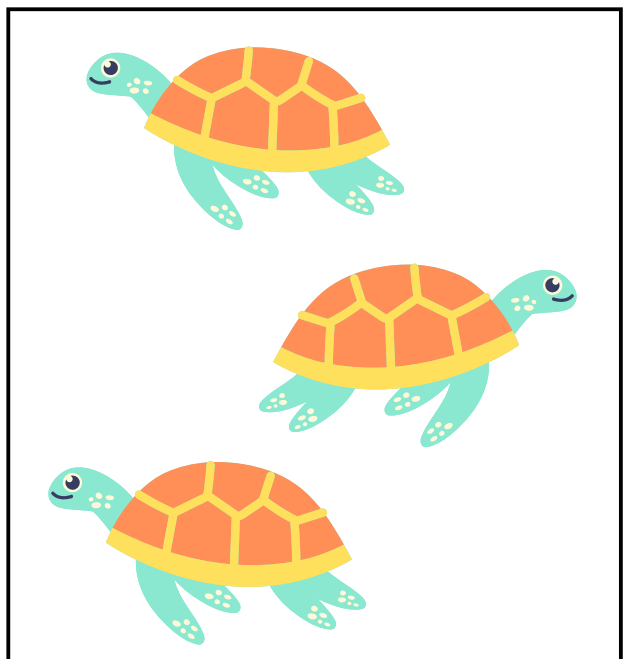

3 5 4 6

7 4 5 3

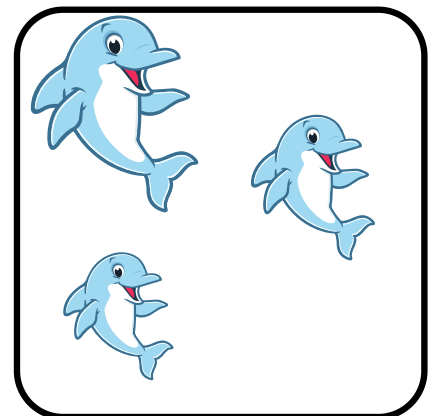

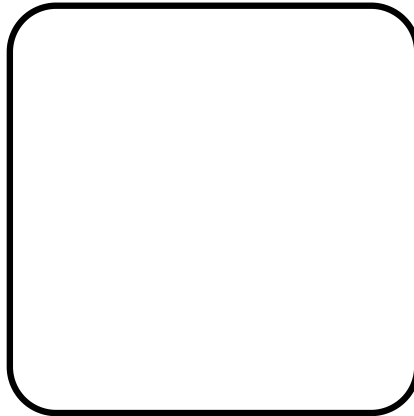

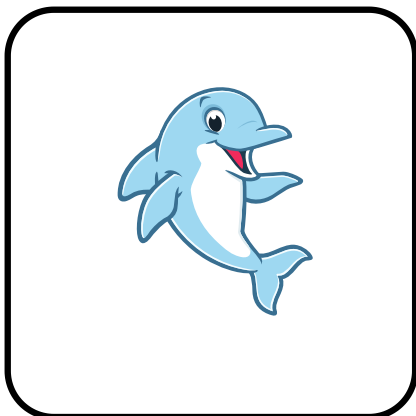

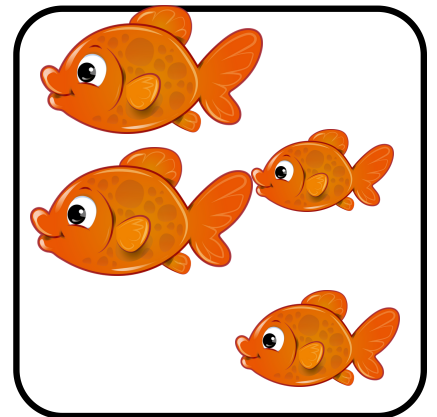

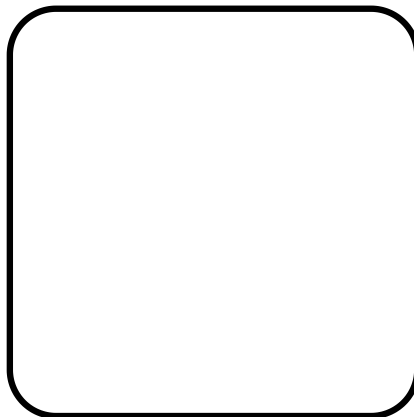

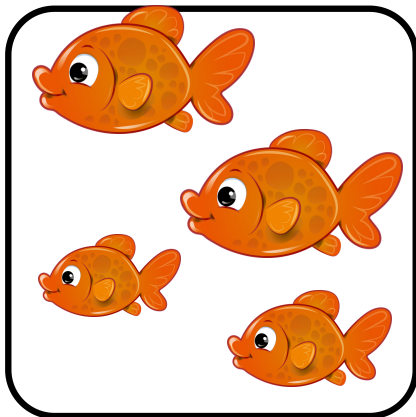

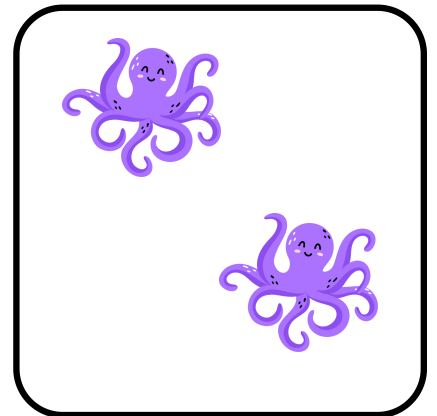

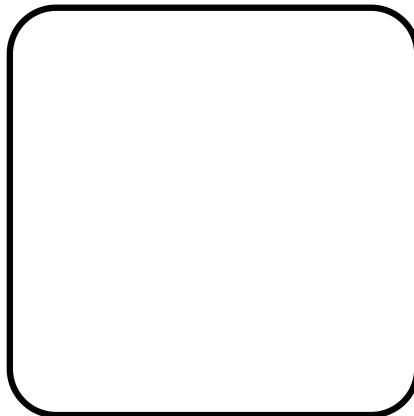

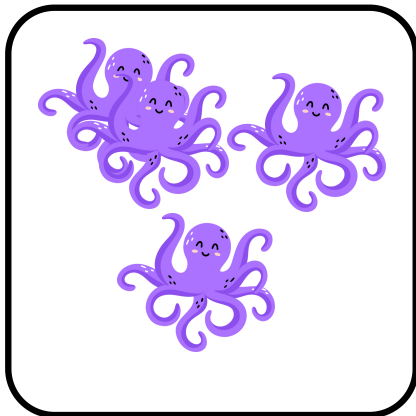

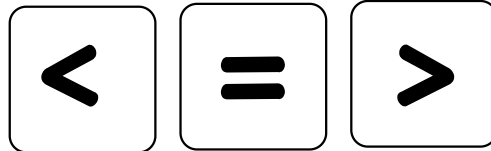

9 8 10 7

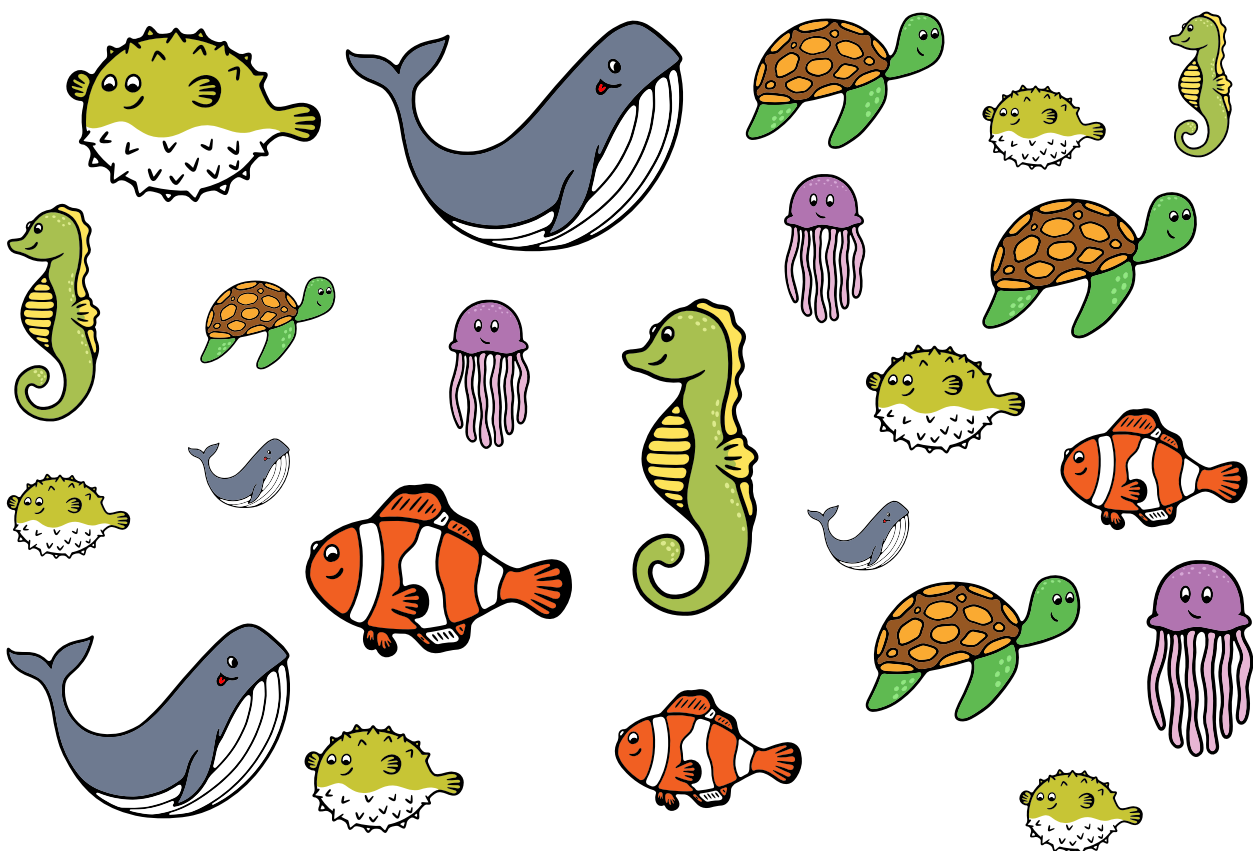

6 2 1 3

Více nebo méně

Spočítej obrázky nalevo a napravo, doprostřed doplň znak podle toho, na které straně je jich více.

Počítáme obrázky

Kolik najdeš obrázků? Podle toho vybavvi příslušný počet políček.
 Např. Mám tři želvy, vymaluji 3 políčka v řádku u želvy :-).

							
							
							
							
							
							

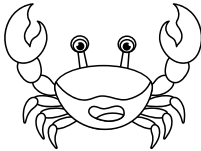

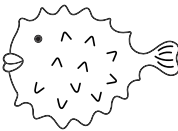

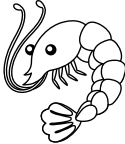

Najdi, spočítej, vybarvi

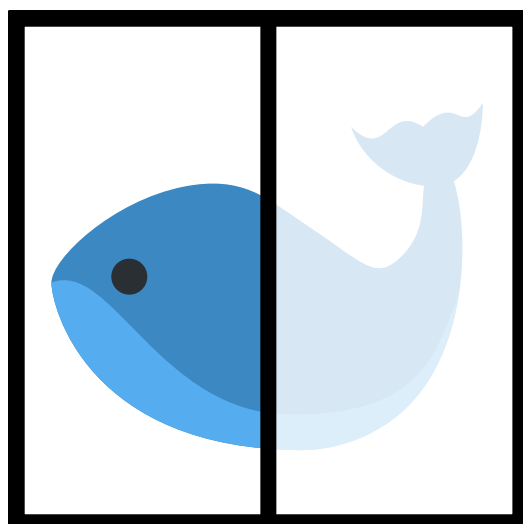

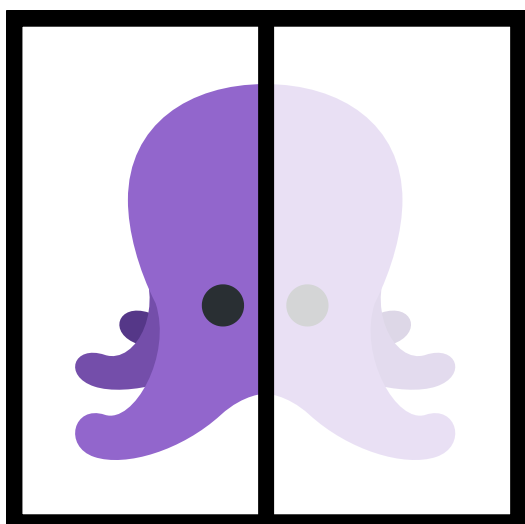

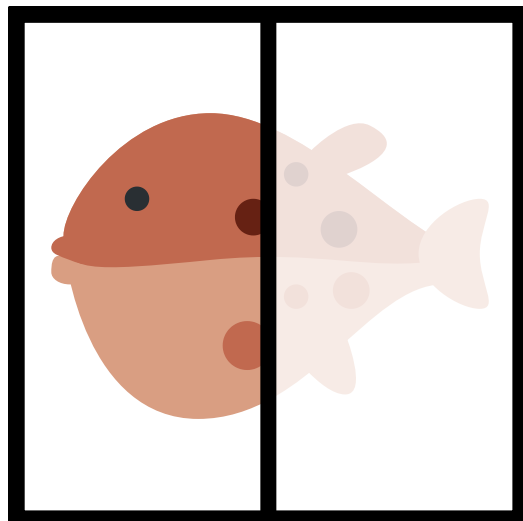

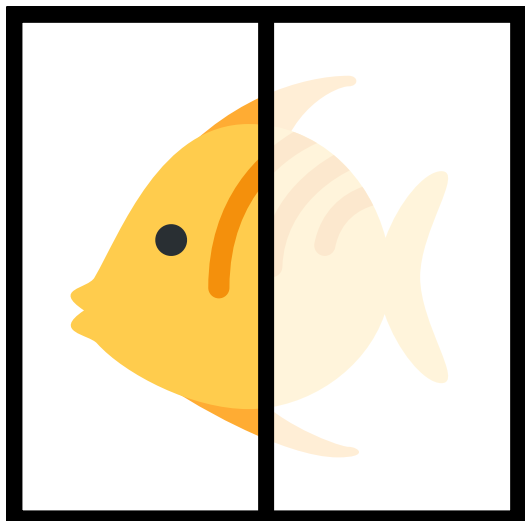

Podívej se na obrázek a spočítej, kolik najdeš stejných obrázků?

Pak si je můžeš vybarvit.

Podle předlohy dokresli druhou půlku rybičky
a vybarvi ji.

Omalovánky

Vybarvi obrázek podle čísel.
